

Family Support for

Parents & Parents-to-Be ages 12 to 25

The Positive Parenting Programs are FREE, home visitation programs designed to support young families in Rockdale, Newton and parts of Henry Counties.

A trained Family Service Coordinator schedules weekly visits and helps parents be better prepared to know what to expect as their baby grows and develops.

Parents learn important ways to stimulate brain growth in their children. Parents also learn to care for their baby's needs while taking care of themselves.
